

Conference Programme

	Day 1 28/06/2017	Day 2 29/06/2017	Day 3 30/06/2017
09:00	Registration		
09:30	Conference opening	Conference opening	Conference opening
	Session 1: Technology and electronics	Session 3: Animal behaviour and physiology	Session 4: Terrestrial animal tracking
09:45	Plenary talk: "Sensors and Electronics for data logging application" Marco Martins	Plenary talk: "Into the deep: Tracking marine predators with modern electronic tags" Yuuki Watanabe	Plenary talk: "Causes and mechanisms underlying changes in the migratory behaviour of birds: insights from tracking studies" Aldina Franco
10:45	"A small and rugged data logger for studying nearshore currents" Bruno Loureiro	"A global synthesis reveals shelf and off shelf habitats shape marine megafauna movements" Ana Sequeira	"Spatial behaviour of Iberian-imperial-eagle juveniles during the dependence period revealed by high resolution tracking devices" Rita Ramos
11:05	Coffee Break	Coffee Break	Coffee Break
11:35	"SiMRiv, a new R package conceived to simulate movements in rivers and heterogeneous landscapes - uses and potentialities" Lorenzo Quaglietta	"Characterization and minimization of the stress response to trapping in free-ranging wolves (Canis lupus): insights from physiology and behavior" Nuno Santos	"Survival and breeding success of captive bred Common Quail released on São Miguel (Azores)" Tiago Rodrigues
11:55	"MYTAG – Integrating natural and artificial tags to reconstruct fish migrations and ontogenetic niche shifts" Filipe Martinho	"Surface presence of Atlantic bluefin tuna in the Gulf of Lions, derived from electronic tagging data" Robert Bauer	"Stopover ecology of a grassland bird" Ana Teresa Marques
12:15	"ACCELTAG - Developing a 3-axis accelerometer acoustic transmitter for aquatic species" Bernardo Quintella	"Vertical movement patterns of oceanic whitetip sharks" Mariana Tolotti	"Migration of Teal Anas crecca wintering in Portugal. The use of Nasal saddles vs. PTTs vs. GPS/GSMs" David Rodrigues
12:35	Lunch	Lunch	Lunch
	Session 2: Behaviour ecology		Session 5: Ecological niche and social behaviour
14:00	Plenary talk: "Tracking the Lives of Oceanic Sharks in a Changing World" David Sims		Plenary talk: "Biologging on bats - when your study organism is small and nocturnal" Dina Dechmann
15:00	"Nocturnal activity and optimal searching: what do skates get up to, when they think we're not watching?" Nick Humphries	Travelling to Porto and Sightseeing	Coffee Break
15:20	"Sub-lethal effects of pelagic longline interactions in juvenile loggerhead sea turtles (Caretta caretta)" Frederic Vandepierre		
15:40	Coffee Break		
16:10	"Evidence of site fidelity and partial migration in the flapper skate (Dipturus intermedius) in relation to an MPA" James Thornburn		Workshop: "Bio-logging from concept to realization: steps, tips and pitfalls" Fernando Lima & Rui Seabra
16:30	"Spatial and temporal dynamics of male lekking behaviour revealed by high resolution GPS tracking" João Silva	16h: Ramos Pinto wine cellars	
16:50	Closing day		
17:00	Poster session	Travel to the harbour and Sightseeing	Closing remarks
18:00	Porto de Honra (Welcome drinks)	18h: 6-bridges cruise	
19:00		Travel to the restaurant and sightseeing	
20:30		Conference dinner
